

Olle Lindgren

Professional experience

- 2020 Data Scientist intern, Volvo AB
Created tools for large-scale automated data analytics, enabling developers to create and share reports on likely causal links between vehicle component failures and component combinations
- 2018-2019 Production worker, Volvo AB
Worked at the evening shift in the Volvo Trucks assembly line.

Non-profit experience

- 2020-2021 Team member, Chalmers Formula Student Driverless

We are developing an autonomous battery-electric race car for competition in Formula Student Germany (FSG) next year. I mostly work with pathfinding.
- 2017 IT responsible, IEM Student division

Less than three months after starting my first year at the IEM student division, I was elected as board member and IT-responsible for the entire student division.

I oversaw the complete redesign of the student division's website, i-chalmers.se.
- 2017 PR responsible, ESTIEM LG Gothenburg

I took part in, and managed the marketing of, several events for exchanges between IEM students from Chalmers other parts of Europe.

Education

- 2019-2021 M.Sc. Data Science & AI

Chalmers University of Technology
- 2019-2020 Exchange student

National Chiao Tung University, Taiwan (ROC)
- 2016-2019 B.Sc. Industrial Engineering & Management

Chalmers University of Technology

Extracurricular

- 2019- Strategy Evaluator (ISE)

I am the creator of a large Python framework for stock market analytics using machine learning methods.
